DETAILED ACTION

103 Rejections Maintained

The rejection of claims 1-3, in so far as they read on the species defined in the previous Office Action, under 35 USC 103(a), is maintained for reasons of record. Applicant's arguments have been carefully considered, but are not persuasive. Applicant's arguments hinge upon the fact that "...the person of ordinary skill in the art would not obviously deduce this property [the release of acid upon photo irradiation] for said compounds [the instant compounds] from the teachings according to the cited prior art." This line of argument is irrelevant, however. The prima facie case for rejection does not depend upon any sort motivation or prior art teaching because, and case law is clear on this point: A compound and its properties are inseparable. *In re Papesch*, 315, F.2d 381, 137 USPQ 43 (CCPA 1963).

Allowable Subject Matter

The elected species and its obvious variant remain free of the prior art.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
